

Cloud Endpoints Workshop

Empowering Secure and Productive Workflows with Windows in the Cloud

Overview & Problem Statement

Organisations are increasingly adopting hybrid work models and cloud-based solutions to enhance productivity and flexibility. However, managing endpoints securely and efficiently across diverse environments remains a challenge. The Cloud Endpoints Workshop addresses these challenges by introducing Windows in the Cloud, powered by Windows 365 and Microsoft Intune Suite, to deliver secure, scalable, and AI-enabled desktop experiences tailored to modern business needs.

What to Expect

This workshop is designed to demonstrate the value of Windows 365 and Intune Suite, while assisting with user training and adoption. Key topics covered include:

- Windows 365
- Device security using Intune
- Data security
- Disaster recovery
- Bring your own PCs
- Hybrid work and travel
- Short-term workers
- High-performance computing
- Shared PCs
- Mergers and acquisitions
- Copilot security

By the end of the workshop, you will:

- Gain a better understanding of your business requirements and objectives for a Windows in the Cloud solution
- Be equipped with practical knowledge and hands-on experience to implement Windows 365 and/or Microsoft Intune Suite solutions
- Have a tailored plan for adopting Windows 365 and/or Microsoft Intune Suite based on your organisation's specific needs and objectives
- Define technical and functional requirements including security and governance
- Be ready to take the next steps towards a seamless and secure cloud-based endpoint management strategy

Who Should Attend

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Chief Technology Officer (CTO)
- Architects/SMEs focused on End User Computing, Endpoint Management, Security, Virtual Desktop Infrastructure and Azure

Duration

Customer commitment:
Approximately 5–8 hours

Why Insight for Microsoft?

Few can compare with our relationship with Microsoft. Partners for 30 years and counting, we are the largest Microsoft global partner with more than 5,000 consultants and 1000 dedicated Microsoft resources globally. Our best-in-class capabilities, unmatched expertise, and ability to successfully deliver solutions built across all areas of Microsoft technology have earned us numerous recognitions.

7

Microsoft Solutions Partner Designations, including:

- Microsoft Cloud
