

Copilot & Power Envisioning Workshop

Accelerate Innovation and
Unlock Business Value with AI

Overview & Problem Statement

Organisations are increasingly seeking ways to harness the power of AI to drive innovation and improve productivity. However, many lack a clear understanding of how to implement and adopt AI solutions effectively. The Copilot & Power Envisioning Workshop is designed to guide organisations through the journey of AI adoption, from individual and functional value to organisation-wide transformation.

What to Expect

This workshop introduces the possibilities with Copilot for Microsoft 365, showcasing how it can accelerate innovation and unlock business value through AI. Participants will experience live demos and engage in readiness assessments for AI implementation. The workshop covers solution prioritisation, business value analysis, adoption planning, and business-aligned design. It also demonstrates the value of Copilot + Power Platform for AI innovation.

Topics covered (customer selects relevant modules):

- Microsoft 365 Copilot
- Copilot Chat
- Agents
- Copilot Studio
- Power Platform

At the end of the workshop, participants will:

- Gain a solid understanding of Copilot 365 and its capabilities
- Build an adoption roadmap
- Define technical and functional requirements including security and governance
- Receive a proof of concept in their environment to quickly assess value and feasibility
- Develop joint plans and next steps with defined timelines

Who Should Attend

- AI Innovation & Transformation Champions
- Business & Technical Executives
- IT Pros, Security Leads, & Decision Influencers
- Adoption Change Management & Corporate Communications Representatives
- Functional Leaders & Users (HR, Sales, Marketing, etc.)
- Anyone wanting to know about Copilot

Duration

Customer commitment:
Approximately 3–5 hours
