

Threat Protection Envisioning Workshop

Strengthen Your Cybersecurity
Posture with Actionable
Insights and Strategic Guidance

Overview & Problem Statement

Organisations today face an evolving threat landscape with increasingly sophisticated cyberattacks. Many lack the visibility and strategic guidance needed to proactively identify and mitigate these threats. The Threat Protection Envisioning Workshop is designed to help organisations assess their current security posture, identify vulnerabilities, and develop a roadmap to strengthen their defenses using Microsoft security solutions.

What to Expect

- Analysis of cybersecurity threats targeting your organisation.
- Actionable recommendations to immediately mitigate identified threats and vulnerabilities.
- Visibility into vulnerabilities across Microsoft 365 cloud and on-premises environments.
- Long-term strategic recommendations from Microsoft experts.
- Modular approach: select 3 out of 4 available modules tailored to your needs.
- Joint planning and next steps to enhance your security strategy.

Who Should Attend

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- IT Security Architects
- IT Security Administrators
- IT Security Operations (Sec Ops)

Duration

Customer commitment: Approximately 5–8 hours
